

5th International Neuro-Urology Meeting

The Annual Congress of the International Neuro-Urology Society

Zürich, Switzerland | 25 – 28 January 2017

in association with

World-class medicine for better quality of life

Swiss Continenence Foundation

The Swiss Continenence Foundation (SCF) is a non-profit organization founded in April 2011 with the goal of supporting and advancing research and further education in the field of Neuro-Urology and functional urology. A central issue of the foundation is the considerable improvement in the quality of patient care and in the patients' quality of life. In addition, the foundation's support in high-quality advanced training and education in the field of Neuro-Urology and functional urology is supposed to contribute to the distribution of the knowledge gained from research and science to physicians, nursing specialists and to the interested public.

In order to achieve these goals we depend on your financial support and would be very pleased to receive a donation.

Welcome

Dear friends and colleagues, ladies and gentlemen

It is our great honour and pleasure to invite you to attend the **5th International Neuro-Urology Meeting**, to be held in Zürich, Switzerland, from **25-28 January 2017**.

Neuro-Urology is a highly-regarded and relevant sub-speciality bridging the fields of both neurology and urology to treat and prevent the debilitating manifestations of lower urinary tract dysfunction which have major impact on our patients' health and their quality of life.

The world's leading experts in Neuro-Urology will provide an overview on the latest advances in research and clinical practice of this rapidly developing and exciting discipline. This unique meeting combines state-of-the-art lectures, lively panel discussions, and hands-on workshops with emphasis placed on interactive components. There will be many opportunities to exchange thoughts, experiences and ideas and also make new friendships.

We are proud to announce that the International Neuro-Urology Meeting will now be the official annual congress of the **International Neuro-Urology Society (INUS)**, a charitable, non-profit organisation aiming to promote all areas of Neuro-Urology at a global level and whose inauguration was inspired during the last International Neuro-Urology Meetings.

To promote the next generation of outstanding young researchers and clinicians who represent the future of Neuro-Urology, we are excited to again announce the prestigious **Swiss Continence Foundation (SCF) Award of 10'000 Swiss francs** which will be awarded to the best contribution from a young Neuro-Urology talent at the 5th International Neuro-Urology Meeting.

We are extremely honoured to be organising the 5th International Neuro-Urology Meeting and are looking forward to seeing you in Zürich.

Best regards

Workshops & supplementary meetings

Wednesday 25 January 2017

14.00 – 19.00

WORKSHOP A: Animal models for neuro-urological research (part I of II)

Letzisaal

Chairs: Célia D. Cruz, Marc P. Schneider

The International Neuro-Urology Society (INUS):

A new platform to join forces

Helmut Madersbacher

Systematic review results and the INUS platform

Marc P. Schneider

Differences in anatomy and physiology of the lower urinary tract
in rats and humans: Impact on translational research

Naoki Yoshimura

Urodynamics in animals: Power and limitations

Karl-Erik Andersson

Beyond animal urodynamics: What is the bladder tissue telling us?

Célia D. Cruz

Urothelial signaling: Myth or reality?

Lori A. Birder

Discussion panel: Karl-Erik Andersson, Lori A. Birder, Jonathan Carp, Célia D. Cruz, Daniel Eberli, Anne Engmann, Martin Flück, Yasuhiko Igawa, Helmut Madersbacher, J. Todd Purves, Martin E. Schwab, Naoki Yoshimura

Workshops & supplementary meetings

Thursday 26 January 2017

08.00 – 12.00	WORKSHOP A: Animal models for neuro-urological research (part II of II)	Letzisaal
	<u>Chairs:</u> Célia D. Cruz, Marc P. Schneider	
	Urodynamics and external urethral sphincter electromyography in unanesthetized unrestrained rats	Jonathan Carp
	Pharmaco-, opto- and magnetogenetics: Is there a place in neuro-urological research?	Anne Engmann
	The afferent and efferent lower urinary tract system: Do we have new pharmacological targets?	Yasuhiko Igawa
	Tissue engineering and stem cells: Where do we stand today?	Daniel Eberli
	Anti-nogo-A antibody: From bench to bedside	Martin E. Schwab
	Inflammasomes: An alternative route to treat lower urinary tract dysfunction?	J. Todd Purves
	<u>Discussion panel:</u> Karl-Erik Andersson, Lori A. Birder, Jonathan Carp, Célia D. Cruz, Daniel Eberli, Anne Engmann, Martin Flück, Yasuhiko Igawa, J. Todd Purves, Martin E. Schwab, Naoki Yoshimura	

Workshops & supplementary meetings

Thursday 26 January 2017

08.00 – 12.00

WORKSHOP B: Botulinum toxin A in neurology and urology

Albis 3

Chairs:

Francisco Cruz, Martin Schubert

Tutors:

Apostolos Apostolidis, Alain Kaelin-Lang, Gilles Karsenty, Ruth Kirschner-Hermanns, Gustav Kiss, Jens A. Petersen, Brigitte Schurch

Lectures

Botulinum toxin in neurology: From poison to medicine

Alain Kaelin-Lang

Botulinum toxin in urology: The inventor's perspective

Brigitte Schurch

Pitfalls and challenges:

The joint neurology and urology perspective

Francisco Cruz and Martin Schubert

Case presentation and hands on training

Specific equipment, preparation and positioning, injection technique and follow-up:

The neurology perspective

Gustav Kiss

The urology perspective

Workshops & supplementary meetings

Thursday 26 January 2017

08.00 – 12.00

WORKSHOP C: Sacral neuromodulation

Europasaal

Chairs:

Stefan de Wachter, Giulio Del Popolo

Tutors:

Juan C. Castano, David Castro-Diaz, Daniel S. Engeler,
Véronique Phé, Philip E. van Kerrebroeck, Karl-Dietrich Sievert

Lectures

Sacral neuromodulation: overview and standardization
of a minimally invasive procedure

Stefan de Wachter

Mechanisms of action of sacral neuromodulation

Giulio Del Popolo

Programming: The devil is in the details

Philip E. van Kerrebroeck

Case presentation and hands on training

Specific equipment, preparation and positioning,
surgical technique and follow-up

Stefan de Wachter

Tips and tricks

all

Dummy implantations & programming

Directions

By plane: Zürich airport is one of the most modern airports in Europe. There are regular flights to Zürich from most countries and major cities of the world. From Zürich airport, you reach the meeting venue easily by car/taxi (30-45 min) or by train (15-20 min to Zürich Altstetten station). From Zürich Altstetten station you reach the meeting venue by bus (7 min, lines 78 and 80, bus stop „Lindenplatz“) or by walking (10 min).

By train: Switzerland has an excellent public transportation system. The Zürich main station (Zürich HB) can be regularly reached from all major Swiss cities. There are also high-speed and overnight trains from major cities in Germany, Italy and France. From Zürich main station it is only a 5 min train ride to Zürich Altstetten station from where the meeting venue can be reached by walking (10 min), bus (7 min, lines 78 and 80) or car/taxi (3 min).

By car: Zürich has excellent road connections to all major Swiss cities and the surrounding countries. However, we recommend to use public transport if possible as parking spaces are limited.

Public transport in Zürich: Zürich has one of the most efficient public transportation systems in the world. The Zürich Altstetten station is in walking distance (10 min) to the meeting venue and offers frequent direct train connections to Zürich main station, Zürich airport and several other destinations in Switzerland.

In direct proximity to the meeting venue are the tram and bus stops „Lindenplatz“ which are conveniently connected with Zürich Altstetten station (bus lines 78 and 80) and the city center (tram line 2). The bus and tram stops „Lindenplatz“ can be reached as follows:

From Zürich main station (Zürich HB):

- take one of the frequent trains to Zürich Altstetten, e.g. S9 (direction Zug), S15 (direction Affoltern a. A.), S12 (direction Brugg). Change at Zürich Altstetten station to bus line 78 (direction Zürich, Dunkelhölzli) or 80 (direction Zürich, Triemlispital), with either bus line, „Lindenplatz“ is the second stop (7 min).

From city center, i.e. tram stop Paradeplatz or Bellevue:

- tram line 2 -> in the direction of Farbhof, Lindenplatz is 12th or 14th stop respectively (18-24 min).

At the Spinal Cord Injury Center of the Balgrist University Hospital, we are a team of internationally recognized specialists in neurology, urology, spine surgery and musculoskeletal disorders with advanced expertise in spinal cord injury. We provide highly specialized interdisciplinary and patient-centered medical care. As a part of the University of Zurich, we have a strong emphasis on teaching and cutting edge research.

The International Neuro-Urology Society (INUS)

The International Neuro-Urology Society (INUS) is a medical and scientific non-profit organisation with the aim to sustainably improve and promote the medical care for patients suffering from neuro-urological disorders.

All researchers and health care professionals who deal with neuro-urological patients or research projects are eligible and welcome to apply for membership. If you are interested to become a member of the INUS please visit the society's homepage **www.neuro-uro.org**.

Companies, institutions, foundations or individuals who are interested to support the society can become partner of the INUS. Please contact us to discuss partnership options.
